

**Immediate Release**

**Suffolk, VA**

**Daniel A Neumann, MD**, a gastroenterologist with **Gastrointestinal & Liver Specialists of Tidewater, PLLC** has been named **DocMVP** in the October 2007 issue of **MDNG Net Guide Magazine, a national publication.**

This prestigious national recognition is awarded to the physician who is instrumental in bringing healthcare technology into the daily routine of his or her medical practice and is acknowledged and nominated by his or her peers for the contributions.

Known locally as one of the region's rising healthcare technology experts, Dr. Neumann has also presented and published EMR implementation data on the national level.

He has been recognized by the Bon Secours Hospital System as "*a physician who has had a substantial influence on healthcare delivery through information technology*" for his positive impact on quality patient care and cost-saving implementations.

Dr. Neumann, along with Anant S. Damle, M.D, Thomas J. Duntemann, M.D, Norman R. Goldin, M.D, and J. Mark Lawson, M.D., comprise the physicians of Gastrointestinal & Liver Specialists of Tidewater, PLLC.

With four area locations throughout Hampton Roads, the group is dedicated to providing patients with the highest quality care and up-to-date information on gastrointestinal and liver disorders, diagnosis and treatment.

Dr. Neumann is leading the way of healthcare technology integration into the daily operation of Gastrointestinal & Liver Specialists, assuring these objectives are met effectively.
